

Robert Klotz, Jr.
South Portland
LD 1073

I am writing to support LD 1073 “An Act to Amend Provisions of the Maine Metallic Mining Mineral Act to Advance Health Equity and Improve the Well Being of Vulnerable Populations”, presented by Representative Ambureen Rana.

Maine has been and continues to need to be a leader in protecting public health. This has been particularly true in the realm of especially toxic and destructive mining in the state.

Thank you.
