LD 1109

Dear Judiciary Committee members,

I am writing you to comment on LD1109. I ask that you do not allow this bill to pass. It is a violation of our second amendment rights and, also has many flaws in it that will ban many tube fed 22 rifles that can't be modified and are in common use for trappers and hunters. Once again I urge you to vote against this bad bill! Thank you for your time.
