LD 998

I am writing in support of LD 998.

Requiring someone to have a conceal carry permit to store their firearm in a vehicle while at work makes absolutely no sense at all. An employer banning firearms on their property should not disarm someone from carrying lawfully the remainder of the day.

A victim of domestic violence should not be forced to be unarmed when running errands after work because she is working for an employer that bans firearms in their building.

I urge you to vote in favor of making this bill.
