Biddeford
LD 1049

I am writing in support of LD 1049.

The requirement to inform an officer you are carrying a firearm if you do not have a concealed carry permit is itself an effort to paint those doing so as somehow an added danger to law enforcement.

It introduces an unnecessary and should be eliminated. Facing a penalty for forgetting to notify law enforcement that you are doing something that is not in anyway against the law is ridiculous.

I urge you to vote in favor of this bill.
