

Andrew Lacher  
Bucksport  
LD 496

Good morning. I am writing in support of LD 496. On June 6, 2022, my son Graham Lacher walked away from the Dorothea Dix Psychiatric Center, in Bangor, where he was staying for treatment of his schizophrenia. He has not been found. Although a Silver Alert was posted, initially only family and friends came out to look for him. He's my son. I know I'm not alone in losing a kid, but I think the system needs to be improved, and you have the power to do that.  
Thank you.
