Winthrop
LD 829

I urge the Judiciary Committee to support LD 829: "An Act to Standardize the Laws Regarding the Carrying of Concealed Handguns in State Parks". Please simplify our laws in this manner and in any other area. In this case there is no need for layer upon layer of requirements that are simply covered by whether a person is prohibited from carry firearms due to violation/conviction of other laws already on the books.

Thank you for your service to the State of Maine.
