LD 1126

I oppose LD 1109 “An Act to Reduce Gun Violence Casualties in Maine by Prohibiting the Possession of Large-capacity Ammunition Feeding Devices” and LD 1126 “An Act Requiring Serial Numbers on Firearms and Prohibiting Undetectable Firearms.”

These laws limit the ability of Mainers to protect themselves and their families in the best manner possible, with the best method available. In an ever more uncertain world, limiting Mainer's 2nd amendment rights, our access to certain firearms, and standard capacity magazines is irresponsible. It is out of touch with what Mainers want and a violation of your oaths of office.

I oppose unconstitutional LD 1109 and LD 1126, and they “ought not to pass.”
