

Senator Anne Carney and Representative Amy Kuhn, and the distinguished members of the Judiciary Committee,

I am asking you to support the passage of LD 677: "An Act to Update the Statutory Definition of "Machine Gun" and Prohibit Possession of a Rapid-fire Device." Quite frankly, I am afraid for my grandchildren, my children, and my friends and neighbors as gun violence becomes more and more common. Yes, even in our "safe" state of Maine.

Rapid fire devices such as bump stocks and other machine gun conversion devices have been used to kill people of all ages, so many unsuspecting victims of the horrors of gun violence. There is absolutely no good reason for individuals to have these deadly devices in their possession.

Please join the other 20 states that have passed laws banning some or all of these devices. You can support this bill without feeling like we are the first state to take such action to protect its citizens.

Please vote "ought to pass" on LD 677.

Thank you for your work on this life saving proposal,

Mary Kane
