LD 1109

I oppose LD 1109 as it is not only unconstitutional, but creates an undue burden on the law-abiding citizens of Maine. Many gun owners have magazines for their firearms which hold more than 10 rounds. Some guns are long out of production and magazines are expensive and difficult to find. Requiring the owners to neuter them to 10 rounds would ruin them. It would also leave citizens at a disadvantage with regard to self defense, not only by the restricted number of rounds they can carry, but also with magazines that may not function properly as some neutered magazines may not function properly. The proposed law would also burden gun dealers with products they cannot legally sell and would have to otherwise replace with factory offerings, if they are even able.

LD 1109 ought not to pass.
