LD 1109

Dear judiciary committee,

I am writing to oppose LD 1109, not only is the bill an infringement on the second amendment, it will not stop a criminal from committing a heinous act. The bill would not have stopped any previous shooting and or any potential future shooting, the only thing this bill will do is take away law abiding citizens rights, that's all any "gun control" bill is aiming at, because of the fact that criminals break laws, so you will only be affecting law abiding citizens who don't want this bill in affect.

Thank you for your time
