Cape Elizabeth
LD 1122

I write to oppose LD 1122, an act to amend the law banning single-use carry-out bags. The law as it stands is a simple and clear method for reducing the plastic waste and paper litter that would otherwise defile our beautiful coastline and litter our roadways. The law effectively helps protect the beauty of Maine, which is important not just for the health of our people and our environment, but also for our vital tourist industry. Clean, natural, and beautiful waters, coastlines, forests, fields, and towns are the reason that people come to visit Maine from all over the world. Please vote no on LD 1122 for the good of all Mainers.
