

Peter O'Connell
South Portland, ME
LD 1126

Dear Members of the Judiciary Committee:

I urge you to approve the passage of LD1109 and to recommend its approval by both houses of the legislature to require the serialization of all firearms possessed by gunowners in Maine and to treat all guns, whether manufactured from 3D printing, kits, or arms manufacturers the same - they must all be engraved with a federal serial number by a federal firearm licensee. This gives our Maine law enforcement officers to trace guns used in crimes and help keep guns out of the hands of people with mental illness or histories of violence and domestic abuse from possessing guns, especially unserialized guns.

Thank you.
