LD 1126 - An Act Requiring Serial Numbers on Firearms and Prohibiting
Undetectable Firearms

Honorable Members of the Committee on Judiciary, My name is Fred Brown and I live in Waterford Maine.

I believe that the ban on unserialized firearms is unconstitutional. The only people that this would effect is law abiding citizens that enjoy manufacturing their own firearms in their on homes for their own use. Criminals will continue to print 3d firearms, and purchase 80% lowers and complete them themselves.

This proposal is misguided, does nothing to prevent crime, and is unenforceable. Please vote Ought Not to Pass.
