I am not in favor of this bill passing due to the unconstitutional nature of restrictive gun laws.

I am concerned about the health and well-being of all Maine citizens - there are massive gaps in care for most mental health needs. If legislators were to actually act in congruence with what is the best outcome for their constituents, they'd spend more time problem solving the healthcare crisis and work to provide more comprehensive care.

Limiting the amount of ammunition in a magazine will not solve this problem; this is a reactive proposition and one that moves us farther away from the rights guaranteed in the Constitution.
