

Mary OConnell  
South Portland  
LD 829

LD 829 is simply a bad law and I urge you to reject it. If I am visiting one of Maine's great parks, I want to know that anyone who carries a concealed weapon has been through a permit process that ensures they've proven they know gun safety and are responsible with their weapon. It seems this law seeks to set an unvetted person free to roam the parks packing a concealed weapon and putting visitors and staff in danger. Who benefits from removing the safeguards now in place? I would argue that it enables "bad actors" to inflict injury on unsuspecting innocent people. Please vote NO on LD 829.
