LD 1126

Senator Carney, Representative Kuhn and distinguished members of the judiciary committee, my name is Matt Gilley and I am a lifelong resident of harpswell. I write to you in opposition of ld

1126 An Act Requiring Serial Numbers on Firearms and Prohibiting Undetectable Firearms. This bill is trying to solve a problem that doesn't exist and creates a new problem in doing so. It is already illegal to own an unserialized firearm. This bill looks to add serial numbers by CNC machine and FFLs adding them to receivers that don't have them when sold. Lower receivers already have a serial number will this require all other receiver parts to be serialized creating an undue burden on law abiding citizens. If unserialized firearms are truly a problem then forcing people to serialize them isn't going to make them do it. Why not stiffen the penalty on the already existing laws. Please vote ought not to pass.
