

Elizabeth Jackson  
Robbinston  
LD 69

Please do not repeal LD 69. Single use plastic bags are an insult to the environment and to our intelligence. They could be reused but we have seen that most folks just throw them away either to sit in a landfill for hundreds (maybe thousands) of years or clutter the roadsides. In downeast Maine where I live and shop, I have noticed that the roadsides are much less cluttered and shoppers are getting along just fine without plastic bags. Please dont bring back an unnecessary piece of trash!
