

Sharon Goguen
Belfast
LD 69

I was a member of the Ban the Bag Committee in Belfast which was a precursor to the state ban on single use plastic bags. I support LD 56 and do not have a problem with LD 1122. However, LD 69 is a gaint step backward for our state. Travel to a state that does not have this ban and you will see plastic bags everywhere, Please do not enact LD 69. Maine is a clean state and is a leader in pollution control...let's keep it that way.
