

Marcia White
Carrabassett Valley
LD 69

I live in Carrabassett Valley, and as Director of CV's Outdoor Adventure Camp Program, worked with our kids ages (4-13) to lobby for the plastic bag ban...they were, and still are, so proud that it became law! DO NOT move Maine backwards! At this time, facing the collapse of our natural environment, when all of us humans, as well as every corner of our planet, contain microplastics it is overdue that we look at limiting or eliminating plastics all together.,,NOT inviting more into our lives.
