LD 1109

Dear Judiciary Committee,

I am writing to you today to express my opposition to LD 1109. This bill does nothing to stop criminals from committing violent crimes but will instead turn law-abiding citizens into criminals for having standard capacity magazines. Criminals who commit violent crimes have already decided to break the law, and they will not stop due to a magazine capacity restriction. Most modern handguns are designed around magazines that have more than 10 rounds. LD 1109 will make those who own these common use firearms in violation of the law. This is a blatant disregard for Maine citizens second amendment rights. Mainers rely on these common use firearms and magazines, because law enforcement may be many miles away when a threat to ourselves or our families arises. LD 1109 attempts to legislate evil and instead strips away the rights of myself and fellow Mainers.
