

Richard Smith
Beals
LD 1126

Judiciary Committee members,

LD 1126 is a pointless waste of time, as far as public protection measures go. Even worse, it's an intentional infringement on privacy of Mainers and upon their Second Amendment rights.

Serial numbers on firearms are useless for preventing crime, and only come into play after a crime is committed. They serve no true benefit to public safety.

LD 1126 ought not pass!
