LD: 667 “An Act to Update the Statutory Definition of “Machine Gun” and Prohibit Possession of a Rapid-fire Device”

Ought not to pass. This is a poorly written bill that would make many enhancements to firearms illegal. An aftermarket “match” trigger is a commonly installed on firearms to increase accuracy by having a lighter, smoother trigger motion. Based on the wording of this bill, this type of enhancement would be illegal. The items the author(s) of the bill are attempting to ban are not used in crimes in Maine. Also, if they are banned, it only affects law abiding citizens. Criminals tend to not follow laws. Last I checked most drugs are illegal, but I see a lot of families losing loved ones to overdoses.
