

Sam Saltonstall  
Brunswick  
LD 56

I am an absent minded shopper who opposes LD 56 because the law as it stands needles me to remember to grab my reusable bag out of the car in the grocery store parking lot, take it in, and carry my groceries home in it.

Why? Because our landfills are being rapidly stoked with unnecessary waste which we all have to pay for, and because of the appalling lack of responsible recycling for the plastic waste from our throw away culture that is clogging the countries to which it is sent (Watch the Story of Plastic!), and because of the health threats to living things everywhere, including us humans.

Please leave alone a good law that reminds me to be a responsible citizen.
