I AM OPPOSED TO this non sense from antigun people that have no idea about firearms and never had fired one or understand the differences its just a attack on people that they dont like guns and the people that are there neighbors and this bill has nothing to do with anything..They dont know that grandads shot gun has 36 22 caliber projectiles in each pull of the trigger. THESE limits on sizes are un enforcable and just a waste of time of vauluble resorces that could be spent better eles where.NO wonder were broke and cant pay the hospitable in maine.FOCUS ON HELPING pay the bills instead of this frivolous non sense
