LD 998

Please oppose LD 998

This bill, and bills LD 829 and LD 1049 are attempts to destroy the gun permitting system now in place. It removes the requirement for gun owners to have valid permits. The gun permit laws have been legally passed to help protect Mainers from gun violence and demand accountability from gun owners. Citizens are required to have a license to drive, a license to run businesses, to be legally married. Why should gun owners be given special privileges?
