

Joan DeTore  
Wells, Maine  
LD 814

We are part of the very large group of elder Mainers who support LD814, we are also exhausted and frustrated by the lack of assistance for home care families. Thankfully, we found SMAA in Biddeford and they have been a wealth of information and Respite services. We NEED such services in order to keep our loved ones at home where they can be cared for in a safe, dignified and loving environment. These elderly family members have given their lives to caring for their families and their communities: it's time for their communities to care for them.
