

Terrie Perrine
Orland
LD 531

My name is Terrie Perrine (terrieperrine@yahoo.com) and I am writing concerning a bill before the Environment and Natural Resources Committee LD 531.

As a year round resident of Orland who has owned a small home on Toddy Pond since 1990 I urge that this bill is passed. Should the dam be removed the impact would definitely affect me and my property value. It would mean a significant loss of taxes to the town of Orland due to the large number of lake front homes. The state of Maine would lose a very popular public boat landing it just spent tax dollars on to upgrade.
