

Linda Mills
Newcastle
LD 682

Thank you for the opportunity to address this committee. My name is Linda Mills. I'm a resident of Newcastle. I urge you to vote against the anti-abortion bills coming before this committee. LD 682 "An Act to Amend Certain Laws Regarding Abortions" changes the standards for when an abortion may be performed from a qualified medical provider over to a set of criteria set by legislators. Restrictive reproductive laws in other states result in more women dying from pregnancy complications and result in an exodus of healthcare professionals to other states. I am against this bill.
