Rockland & MSSM parent
LD 787

I am writing in support of LD 787 and LD 1011 regarding the Maine School of Science and Math. I thank you for your attention and dedication, as this school is a life saver for my son (a 14-year old sophomore from Rockland) and hundreds of others who desperately crave rigor and camaraderie with like-minded students and staff. MSSM is keeping the love of learning alive which will not only benefit the dreams of its students, but ultimately improve the welfare of all towns and cities in Maine and beyond. Please always invest in your brightest and most courageous students. Their independence and vision are a national asset.
