I believe that abortion should be a personal choice for a family. It is often a medical need. People should have the right to make a decision about their bodies and families. It may not be YOUR choice, but we should all have the right to decide what's best for our unique situations. Education can be strengthened in order to help people with contraceptives or actions to prevent pregnancy. Sometimes pregnancies become unsafe for the mother. There are also many times that someone is abused or forced to have intercourse. I believe it is unethical to assume every child should be born since we cannot ever know for sure if their home will be safe, nurturing, or capable. No one should make this decision except for the parents and doctors directly involved.
