To the ME Judiciary Committee and Voting House Representatives & State Senators,
Please fight for women's reproductive rights. The people of Maine know that access to abortion saves lives and protects women. The religious underpinnings of the pro-life movement are beliefs shared not by a majority of Americans or Mainers, but by a religious minority. As such, the freedom to have an abortion exists alongside the freedom to oppose them, but it is not one citizen's (nor legislator's) duty to deny the other a choice. Please protect women's rights in this state and oppose this Act that aims to strip Maine women of their access to reproductive health services.
