LD 1128

Testimony for LD1128

In my experience with my N.D. I have had a great benefit from being able to count on her to listen to my concerns and with a caring heart prescribe correct solutions both natural and medical for my health needs. I was thankful that she was able to fill prescriptions for a chronic health problem, enabling me to perform my activities of daily life.

It would have been a huge problem financially and physically for me to have to see other physicians for the purpose of prescription refilling and also used their time unnecessarily. MAINE IS IN DIRE NEED OF THE EXCELLANT CARE OF OUR N.D.S. We need to have LD1128 passed . [LEASE VOTE IN FAVOR TO PASS THIS BILL. Sincerely Sandra L. Clavette
