LD 660

I am writing to express my strong support for LD 660. This bill will, among other things, establish necessary restrictions on the selection of academic class offerings, curriculum materials, and on-site professional development programs. Additionally, it includes provisions designed to align with federal law, ensuring parental access to information and the protection of students' rights.

Transparency in education is essential. Parents and community members have a right to know what is being taught in public schools. Making curricula and professional development programs accessible to all citizens—especially parents—fosters trust and accountability. If schools are unwilling to share this information, it raises the question: what are they trying to hide? Why the secrecy?

I firmly believe that LD 660 promotes transparency and accountability in public education. For these reasons, I respectfully urge you to vote “ought to pass” on this bill.

Thank you for your time and consideration.
