To ban abortion services and or birth control/contraceptives will highly affect out state in a negative way. Maine is already behind in income, schooling and jobs. With no guarenteed way to control population (knowing condoms are NOT 100% effective, assuming those will still be allowed?) We will only further decline in those things. We as woman should have choices on which birth control we use or don't use. Every woman is different and some forms of birth control cause bad reactions, leading the person to have to try a different one.

To reduce assault charges on pregnant woman? Aggravated on top of it?? This is down right disgusting and can not see or wrap my mind around ONE single reason that this is even up for debate. PROTECT THE MOMS, DAUGHTERS L, SISTERS OF MAINE. PROTECT OUR BODIES, PROTECT OUR RIGHTS. PROTECT MAINE.
