LD 975

I strongly oppose LD 975.

Women will die because of this bill.

Abortion is a necessary and important medical intervention. The outright banning of it is wrong. It is dangerous. It cruelly condemns women to death, or serious chances of death. It condemns rape victims to carry their attacker's victims. It forces women who know they aren't equipped to care for a child to do so, to both their detriment.

You can know for sure this law is disregard of women and women with child because is LESSENs penalties for assaulting them.

How does that make any sense? It is cruel and controlling. It is wrong.
