You need to stop these coyote killing contests!! First of all you don't have coyotes in Maine, these are wolves and wolf coyote hybrids. This makes the killing illegal. You are headed for big trouble because this killing is illegal and people all over the country are learning what is going on in Maine. I live in Fl and neither I nor my family and friends will visit Maine as long as this disgusting practice continues. The people that participate in these killing contests are psychopaths. So please stop this!
