Kittery, Maine 03904 USA
LD 1293

Let's remember now it is year 2025 and time to get civilized and stop making businesses out of killing / murder of animals via contests. All New England state which have coyotes have banned the killing contests which end the life of the animal . We must also ban such contests using murder for prizes, mostly for the reason that our ability to achieve humanity is at stake should this type of contest' horror from hell happen. Please give coyotes a chance to be protected from murder competitions by banning those events under all and of any disguise used or created. We Mainers must be brave in invoking compassion and end even the thought of killing. Please pass this legislation LD 1293, and carry on to deserving happiness and pride n doing so.
