

Allan Lovering  
North Berwick Maine  
LD 676

I am vehemently opposed to removal of trackage of the former Maine Central Mountain Division. The mountain division has the potential to be ,once again , a viable and important rail transportation corridor. Several rail carriers have expressed interest in operating this line, including the Conway Scenic Railway.If there is a strong public interest in a bike path , the "Rail With Trail " concept would probably be the best option for all concerned . I urge you to defeat LD 676! Thank you ,Respectfully Allan Lovering .
