LD 1074

Good Day committee members,

My name is Thazra-Rosie Hylton of Cumberland County. I am writing to strongly oppose LD 1074 An Act to Remove the Limit on the Length of Probation That May Be Served for Aggravated Attempted Murder. I do not see the need for it. I have no facts or figures to quote, I simply do not understand why a crime that is punishable by life in prison would also need to have a lifetime probation option. This strikes me as oppressive and leaves little room for rehabilitation in our justice system. What hope of redemption can an incarcerated person look towards if there is no pathway to rehabilitation?

Please do not let this unnecessary bill pass. All laws need limits.

Respectfully,  
Thazra-Rosie Hylton
