Swans Island
LD 841

Thank you committee members for the opportunity to share my perspective on LD 841.

Studying the medical risks of living on an unbridged island is a prudent move by the state legislature. I am confident once all data is collected that the current overnighting of ferries on the islands and utilizing their use by EMS, Law enforcement and emergency preparedness services is usually the best and most efficient transport when called upon and implemented.

I would encourage the committee to vote "ought to pass"
