

Debra Mikulak
Round Pond
LD 1180

My name is Debra Mikulak, living in Round Pond, a village in Bristol, Maine. I would like you to support LD1180 regarding credit card companies charging a fee to receive a paper statement. Maine has the oldest population in the country. Many of our residents can not or do not use a computer. For example, my good friend is a college graduate. She is 89 years old. She would not be able to pay a bill online. My husband would not be able to pay a bill online. I have read that many Mainers do not have Internet access or have poor Internet access. This would make them unable to pay a bill online. Also online payments can increase a person's chance on an online scam.
