LD 1144

Dear committee members,  
I support LD 1144

We are still trying to recover from record high inflation, and the cost of living is continuing to be difficult. Maine, which I'm a native to, is ranking one of the highest taxed states in the nation. I would like our 3 children to be able to afford to stay in Maine and raise their own families. We need property tax relief! I agree with any methods possible to make this happen. I support LD 1144 and it ought to pass.

Thank You
