LD 1293

As a concerned Maine citizen, I support LD 1293 "An Act To Prohibit Coyote-Killing Contests in Maine". Coyote killing contests are inhumane, unethical, ineffective and potentially destructive. Coyotes play a crucial role in ecosystems by controlling rodent populations and maintaining biodiversity. These contests also disrupt the coyote's social structures often leading to an increase in reproductive rates. I urge you to support LD 1293 and allow Maine to join 10 other states that have already banned these cruel and ineffective contests. Thank you.
