

Paulette Tateishi
Gorham, Maine
LD 1293

I am in support of LD 1293. We, as a society, do not need to need to kill coyotes or any other animal for sport. I believe that animals are sentient beings with a right to share our Earth as a home. All animals have a place in the chain of life and when we disrupt the balance it is not good for humans. Killing for food is one thing. Killing (and certainly en mass) for sport (fun and/or pleasure) is wrong and beneath us. Please pass this bill.
