

Jane Williams  
SAD72, town of Lovell  
LD 660

This bill would put undue stress on school districts, especially smaller ones such as SAD72. Until last year we did not even have a full time curriculum coordinator, and although we do now, these dictates would take an unnecessary amount of time and effort. Currently, we have our approved curricula on our website for all to view. These additional requirements are invasive, unnecessary and dictatorial. Leave the districts free to teach our children. Stop dictating additional requirements of our already over worked and underpaid professionals.
