I think the comitte should vote "ought not to pass" on this bill to prevent Coyote killing contests. I don't beleive we should be taking tools out of the toolbox when it comes to managing predators. I don't beleive a coyote contest is any more inhumane than a big buck contest or a fishing derby. Please leave us sportsman alone and stop trying to make the things we do and enjoy illegal to apease animal rights activists who couldn't tell the difrence between a buck scrape and a cowpie.
