I'll start by saying how amazing the TANF/SNAP program is and how it's significantly benefited my children and I. I had no idea where to start or what to do in the beginning of job searching or skills searching. I am SO thankful for Roliza; who was kind, friendly, helpful, knowledgeable, and personable in helping me learn more about this program. In helping me get back on my feet. Helping me to push myself in directions I wouldn't have pursued. Without her, I wouldn't be where I am right now, standing on my own 2 feet and supporting my children. I've come a long ways, all thanks to her.
