

Tomas Childs
Standish
LD 1020

The MDOT project which would take property from Smiling Hill Farms is just another example of government overreach and it must be stopped. it is bad enough that people are moving to Maine in droves, we should not be accommodating this influx lest we continue to lose what we all love about this gorgeous state. The one and only way I could support such a project would be if it were accomplished by a tunnel boring machine, or a tunnel constructed via cat-and-cover.
LD 1020 must be passed - MDOT be damned.
