I support LD 676 - An Act to Fund the Recommendations of the Mountain Division Rail Use Advisory Council. Without funding leadership on this project, momentum and direction will suffer. Having involved members of a council will ensure that the land and people's best interest are considered. Additionally, an advisory committee will ensure consideration of critical issues, allow space to hear public testimony, conduct research as the need arises, and the review of recommendations from voices of the people. All of this will support the committee to discuss, formulate, and forward well-developed, thoughtful recommendations to the Mayor and Commission in a timely manner.
