I am not in favor of this Connector. I have never yet seen ANY connector in Maine do what they say it will do. They never really cut down on traffic or travel time. It's just a gimmick to waste for dollars on something that is of basically no real value. Leave Smiling Hill Farm alone and let it thrive as always. You do not need a single piece of their property. Do NOT make this connector a reality; keep it an UNFULFILLED "dream" of whoever thinks it's necessary. Thanks for reading....
